

# Opportunities to Change Your Attitude

1

Your teacher will provide you *two reminders* that your cooperation is needed during class time. You have a chance to change your attitude.

2

You need *a third reminder* to cooperate, so you go to the Office to talk to the principal about the problem. You have another chance to change your attitude.

3

If you go to the Office to see the principal *twice in one week*, your attitude is not changing. Your parents will be called and meeting with your family may be scheduled.
